PROFILE SUMMARY

Results-driven Mobile App Developer with 4+ years of experience building cross-platform (Flutter, iOS, Android) apps. Delivered 8+ production apps across insurance, e-commerce, and retail with optimized UX, CI/CD automation, secure integrations, and OCR-based document automation. Recognized for improving app stability, mentoring developers, and collaborating directly with clients across Indian and UK markets.

SKILLS

- Languages & Frameworks: Flutter, Dart, Kotlin, Java, Android, iOS
- State Management: GetX, Provider, Bloc
- Backend & Cloud: Firebase, REST API Development, Push Notifications, OCR/Document Automation
- UI/UX Design: Material Design, Cupertino, Prototyping, Wireframing, Responsive Layouts
- Tools & Workflow: Git, GitHub, Agile (Scrum, Sprint Planning), CI/CD Pipelines
- Architecture & Principles: Clean Architecture, MVVM, OOP, Secure Storage
- Integrations: Payment Gateways, Google Maps, Analytics, Notifications, 3rd-Party SDKs

WORK EXPERIENCE

Mobile App Developer | Policy Ghar

04/2025 – Present

- Sole mobile developer driving end-to-end development of multiple client apps, including Policy Vault (insurance) and Mega Flooring UK (flooring e-commerce), using Flutter for cross-platform deployment.
- Architected secure, scalable modules for policy management, onboarding, and real-time notifications in Policy Vault, an insurance-focused digital document locker.
- Built and shipped Mega Flooring UK, a Flutter shopping app for the UK market covering rugs, vinyl, LVT, laminate, carpets, and artificial grass, with a project-builder feature for fitters to curate and share product lists with clients.
- Designed and implemented an OCR-based Smart Document Scanner in Policy Vault that lets users upload a policy or ID document and auto-extracts data to auto-fill forms, cutting manual entry and speeding up onboarding.
- Integrated RESTful APIs with encrypted storage and optimized UI/UX and navigation, ensuring performance, data security, compliance, and strong user engagement.

Mobile App Developer | Softfix OPC Pvt. Ltd.

07/2022 – 03/2025

- Delivered end-to-end mobile apps using Flutter (iOS/Android) and native Android (Kotlin/Java) with clean, scalable architecture; implemented state management, encryption, and performance optimizations.
- Designed HLD/LLD with UML, enforced coding standards, and integrated third-party SDKs/APIs (payment gateways, analytics, notifications) to expand app functionality.
- Automated delivery with CI/CD pipelines, mentored junior developers, and collaborated directly with clients for faster delivery.

Android App Developer | Skyview Smart Solution

03/2021 – 06/2022

- Started as Intern; promoted to Junior Android Developer after 6 months based on performance.
- Developed native Android apps in Java/Kotlin; refactored legacy codebase with MVVM, reducing crash rates by 25%.
- Integrated REST APIs and Firebase for real-time data sync, improving UI/UX and increasing user engagement by 35%.

PROJECTS

Policy Vault: Insurance-focused Flutter app for secure policy management, onboarding, family sharing, and real-time notifications; recently added an OCR Smart Document Scanner that auto-extracts data from uploaded documents to auto-fill forms.

Mega Flooring UK: Flutter e-commerce app for the UK flooring market (rugs, vinyl, LVT, laminate, carpets, artificial grass) with a project-builder tool for fitters to share curated product lists with clients.

OneVasco: Paid visa application service built in Flutter, offering professional visa assistance, form-filling support, document verification, secure payments, and real-time application tracking for global travelers.

Mechmiles: Flutter app for a pan-India highway service point network, enabling vehicle service booking, tyre/battery replacement, and SOS roadside assistance for 2W/3W/4W and commercial vehicles.

CloseToBuy: Flutter app for food delivery and dining, letting users discover restaurants, browse menus, and place orders, with integrated payment gateways and push notifications for order updates.

SGTBPS Teacher: Native Android app built with Java & Retrofit for teachers, featuring class management, attendance tracking, and real-time updates.

VKSSVNIC School: School management app for students, teachers, and parents covering attendance, fee tracking, and exam schedules.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science & Engineering

Dr. A.P.J. Abdul Kalam Technical University (AKTU), Uttar Pradesh — 2020
