

DHARMENDRA KUMAR

Flutter Developer | Cross-Platform Mobile App Developer | Software Engineer
+91 9795541088 | dharm.dk1999@gmail.com | Lucknow, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Flutter Developer with 4+ years shipping 8+ production cross-platform apps across insurance, e-commerce, and retail. Led a 5-developer team and delivered apps for Indian and UK markets, combining Clean Architecture/MVVM, Firebase, Magento 2 REST APIs, and OCR-based document automation to ship secure, scalable mobile products end-to-end.

TECHNICAL SKILLS

- **Languages & Frameworks:** Flutter, Dart, Kotlin, Java, Android, iOS
- **State Management:** GetX, Provider, Riverpod, Bloc
- **Architecture:** Clean Architecture, MVVM, OOP, HLD/LLD (UML)
- **Backend & APIs:** Magento 2 REST APIs, Custom API Integrations, Firebase, REST API Development
- **UI/UX:** Material Design, Cupertino, Responsive Layouts, Prototyping, Wireframing
- **Tools & Delivery:** Git, GitHub, Agile (Scrum, Sprint Planning), CI/CD Pipelines
- **Integrations & Security:** Payment Gateways, Google Maps, Analytics, Push Notifications, OCR/Document Automation, Encrypted Storage

PROFESSIONAL EXPERIENCE

Mobile App Developer | Policy Ghar

Apr 2025 – Present

- Sole mobile developer leading end-to-end development of two in-house product apps — Policy Vault (insurance) and Mega Flooring UK (e-commerce) — using Flutter for cross-platform deployment.
- Architected secure, scalable modules for policy management, onboarding, family sharing, and real-time notifications in Policy Vault, an insurance-focused digital document locker with 10K+ downloads and ~60% monthly active user (MAU) retention.
- Engineered Mega Flooring UK, a Flutter e-commerce app spanning 6 product categories (rugs, vinyl, LVT, laminate, carpets, artificial grass), including a project-builder tool used by fitters to share curated product lists with clients.
- Streamlined backend connectivity by integrating custom Magento 2 REST APIs via Magento Admin Integrations, powering catalog, pricing, stock, and checkout workflows in the Flutter app.
- Automated onboarding with an OCR-based Smart Document Scanner that auto-extracts data from uploaded policy/ID documents to auto-fill forms, cutting document entry time from ~2 minutes to under 30 seconds per document.

Mobile App Developer | Softfix OPC Pvt. Ltd.

Jul 2022 – Mar 2025

- Delivered end-to-end mobile apps using Flutter (iOS/Android) and native Android (Kotlin/Java) with clean, scalable architecture, state management, encryption, and performance optimization.
- Designed HLD/LLD using UML, enforced coding standards, and integrated third-party SDKs/APIs including payment gateways, analytics, and push notifications across client projects.
- Led and mentored a team of 5 junior developers over a nearly 3-year tenure; served as the primary point of contact for client meetings, gathering requirements and change requests and assigning tasks across the team for timely delivery.
- Gained hands-on exposure to CI/CD pipelines, supporting automated build and release workflows alongside senior engineers.

Android App Developer | Skyview Smart Solution

Mar 2021 – Jun 2022

- Started as an Intern; promoted to Junior Android Developer after 6 months based on performance.
- Refactored a legacy native Android codebase (Java/Kotlin) onto MVVM, reducing crash rates by 25%.
- Integrated REST APIs and Firebase for real-time data sync, improving UI/UX responsiveness and increasing user engagement by 35%.

Android Developer Apprenticeship | Mecatredz Technology Pvt. Ltd.

Nov 2020 (6 Months)

- Completed a 6-month Android development apprenticeship (via Apprenticeship India / NAPS) covering Java/Kotlin-based app development, earning a certification on completion.
- Apprenticeship performance directly led to placement as Android App Developer at Skyview Smart Solution.

SELECTED PROJECTS

OneVasco — Flutter Visa Application Platform

- Built a Flutter-based paid visa application service covering form-filling support, document verification, secure payments, and real-time application tracking end-to-end.
- Designed the payment and document-verification flow to keep applicant data secure while reducing manual follow-up for support staff.

Mechmiles — Pan-India Highway Service Network App

- Developed a Flutter app for a pan-India highway service point network supporting vehicle service booking, tyre/battery replacement, and SOS roadside assistance.
- Implemented real-time location-based service matching to connect stranded users with the nearest available service point.

CloseToBuy & SGTBPS Teacher

- CloseToBuy: Flutter food delivery and dining app with restaurant discovery, payment gateway integration, and push notifications for order updates.
- SGTBPS Teacher: Native Android app (Java & Retrofit) for class management, attendance tracking, and real-time updates.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science & Engineering

Dr. A.P.J. Abdul Kalam Technical University (AKTU), Uttar Pradesh — 2020 | CGPA: 7.4
